Adding Fresh To Handcrafted

HERB BAR KITS

Slap, spank, whack!

Sound aggressive? Only when it comes to releasing essential oils in fresh herbs and increasing operator bar sales - one of restaurant's biggest profit areas.

In the age of Instagramming, wow-factor, handcrafted cocktails need to be unique, fresh, and taste amazing.

Your operators are looking for new ideas to grow revenue and customer loyalty, so present them with a new idea: conventional and organic Sensationally Fresh® herbs and fruits just for the bar.

It's always 5 o'clock somewhere.
