

Valentine's Day
Beauty and the Beets

FEBRUARY 5, 2019

- 
- Helps support healthy circulation in the body
 - Helps support capillary health in the skin
 - Helps support healthy inflammatory response as a result from activity
 - Helps support immune function
 - Nitrate-rich which can boost a body's nitric oxide production
 - Helps maintain already normal blood pressure levels
 - Can help boost energy level and stamina
 - Contains antioxidants and electrolytes

<http://bit.ly/2GIL0tb>

Beets are one of the most super nutrition vegetables and yet they are not represented enough on menus. They are versatile and can be used cooked and raw. With plant-based diets now mainstream, what better way to eat your beets than in a dark chocolate (and vegan) muffin? Operators will be smart to jump on this bandwagon for Valentine's Day and everyday.

Beets and Baby Beets available through Harvest Sensations Los Angeles
